From: Mrs. King
Re: Summer Book Report/Summer Math Review

Your assignment is to read one book during the summer. I have included a Summer Reading List for you to choose from. You are also welcome to read any book of your choice, provided it is at your assigned reading level. After reading your book you will fill out the Beginning, Middle, and Ending Book Report Form. Your book report is to be turned in the second day you return to school. You will receive a reading grade for this assignment.

Over the summer you will need to review your math skills. Your second assignment is to complete the Math Review Worksheets. Your Math Review Worksheets are to be turned in the second day you return to school. You will receive a math grade for this assignment.

I am looking forward to meeting you when you return to school. I hope you have a fantastic summer!!!!!!

Mrs. King
